systems have remained unseen or unreported to all but a few until now profusely illustrated with over 300 historical photographs complete wing chun the definitive guide to wing chun s history and traditions presents seldom seen information on a dozen branches of the wing chun art it offers the reader side by side comparison of these arts by outlining each system in terms of wing chun history principles basics and training methods yip man wing chun yuen kay san wing chun kuen gu lao wing chun kuen nanyang wing chun kuen pan nam wing chun kuen pao fa lien wing chun kuen hung suen wing chun kuen and more

information in this book pulls purely and directly from my understanding of sifu miller s teachings on yuen kay san yk s canton wing chun this rare lineage of wing chun and related practices have evaded the public eye as a closed system since inception teachings handed down orally from sifu to student for countless years no external resources were referenced as the information contained here in was originally composed in a very stream of consciousness manner from years of teachings and refined over a significant amount of time wing chun is an internal system as its primary focus is using the body s structure and positioning over strength external systems such as boxing require a great deal of strength and endurance while wing chun does not wing chun is an art and science which relies on mental and dynamic stillness and can be pursued and improved upon over a life time because wing chun was developed to apply body structure and positioning by a woman to overcome a larger and stronger male opponents power advantage it is ideal for self defense regardless of gender strength or size practitioners train in various positions to develop structure balance posture centeredness and an explosive spring which powers our short fast yet powerful strikes wing chun practitioners can fight using any stance and bodily position deemed necessary for a given encounter however elbows will usually remain in the center and an opponent can expect to receive anywhere from 4 20 strikes kicks and or techniques per second depending on the practitioner s skill level all directed toward vital structure or organs in a real fight every strike intent on incapacitating the aggressor there are no set combinations for an opponent to anticipate everything is in the moment every movement made by an aggressive opponent determines how and when the wing chun practitioner s body responds to protect itself from potentially life threatening harm
